

Technical drawing of a 100mm diameter electric motor, showing front and side views with dimensions.

Front View Dimensions:

- Overall diameter: $\varnothing 100$
- Flange diameter: $\varnothing 85$
- Flange thickness: $\varnothing 10$
- Mounting hole diameter: $\varnothing 8$
- Mounting hole spacing: $\varnothing 20$
- Flange outer diameter: $\varnothing 100$
- Flange inner diameter: $\varnothing 85$
- Flange thickness: $\varnothing 10$
- Flange outer diameter: $\varnothing 100$
- Flange inner diameter: $\varnothing 85$
- Flange thickness: $\varnothing 10$
- Flange outer diameter: $\varnothing 100$
- Flange inner diameter: $\varnothing 85$
- Flange thickness: $\varnothing 10$
- Flange outer diameter: $\varnothing 100$
- Flange inner diameter: $\varnothing 85$
- Flange thickness: $\varnothing 10$

Side View Dimensions:

- Overall height: 121
- Flange height: 60
- Motor body height: 80
- Flange thickness: 10
- Mounting hole diameter: $\varnothing 8$
- Mounting hole spacing: $\varnothing 20$
- Flange outer diameter: $\varnothing 100$
- Flange inner diameter: $\varnothing 85$
- Flange thickness: $\varnothing 10$
- Flange outer diameter: $\varnothing 100$
- Flange inner diameter: $\varnothing 85$
- Flange thickness: $\varnothing 10$
- Flange outer diameter: $\varnothing 100$
- Flange inner diameter: $\varnothing 85$
- Flange thickness: $\varnothing 10$
- Flange outer diameter: $\varnothing 100$
- Flange inner diameter: $\varnothing 85$
- Flange thickness: $\varnothing 10$

	D1_{H8}	b1	t1
